Our creds

The BidCraft Academy's engaging and varied course material benefits from a body of work spanning 40 years.

“ A great training course

“...well-constructed at the right level of detail, interesting and well presented. Using APMP terminology, it covers the entire Business Development life cycle - Roles, Activities, Tools - comprehensively and succinctly. So, as well as being an ideal companion for anyone preparing for the APMP Foundation exam, it's also a useful tool for anyone new to bidding who wants an overview of how it should be done, and for the more experienced practitioner looking for a refresher course in the basics. Excellent!”

Jon Darby

APMP Professional, Capture Practitioner and Fellow

I think it's vitally important to still practice what we teach, which is why you'll often find me leading bids for our clients. This helps me share insights and perspectives that you won't find in 'the book'. I'm proud to have served on the board of APMP UK for seven years and I'm a regular speaker at conferences, networking events, and webinars.

Eve Upton

Practitioner and Capture Practitioner

I make a principle of doing bidding as well as teaching people - it keeps it real. I'm embedded in the world of APMP as the COO of the UK board and a regular presenter at conferences, chapter events, and webinars. I was the first person in the world to pass APMP's Capture Practitioner certification, so in my eyes that makes me qualified to help you, too.
